REBECCA

ENGINE FROM SODOR

REBECCA is a strong tender engine who often underestimates her size and speed, often with hilarious consequences.

Rebecca's ability to laugh at herself and see the best in others draws other engines to her.

Despite her warm nature, Rebecca is not afraid to stand up for herself, or other engines, and she's not intimidated by the older engines on the railway.

REBECCA IS A MEMBER OF THE STEAM TEAM.

PERCY

THE SMALL ENGINE

Percy is Thomas' best friend and pulls the mail train, which he is very proud of.

He is one of the most popular characters and is more likely to be found traveling along a branch line than on a mainline. As well as pulling the mail train, Percy works the many mines and quarries around the Island which means he is not cleanest engine in the sheds, although he does love being clean when he gets the chance.

Percy always wants to do his best, and perseverance is one of his strongest qualities.

GORDON THE BIG EXPRESS ENGINE

Gordon is a self-satisfied blue mainline engine with a coal tender (identical to Henry) who pulls The Express and believes shunting is beneath him. He is the fastest engine on Sodor and will jump at any chance to go faster.

He has a tendency to look down on the other engines, because he believes that being the fastest engine and pulling The Express are the highest honours on the island.

Gordon can sometime go too far trying to prove he is the fastest engine, which often leads to an embarrassing ending.

He knows The Fat Controller is his boss and, like all the other engines, endeavors to be reliable and useful providing the job is not beneath him!

TOBY

THE TRAM ENGINE

Toby is the oldest and wisest of the Steam Team. He is a branch line steam tram, and both his face and body are square, and his body is wood, not metal. He can travel forwards and backwards, so doesn't need a turntable. He's also very proud of his cowcatchers.

He was rescued from the scrap heap by The Fat Controller and because he is a tram, he isn't as fast or strong as even the smaller engines, which leads him to try harder than most other engines.

Toby has his own line, usually accompanied by his friend and coach Henrietta but can also work at the quarry with Mavis. He also serves the farming community, and is good friends with Thomas and Percy. NO7

DESEL

Diesel is the original diesel engine on the island and generally works in most areas, but can often be found working in the scrap yards or smelting works.

Always ready to stir up trouble in the shed, Diesel's characteristic smirk is a sure sign that some engine, somewhere is in for a bit of trouble. However given a chance, Diesel does want to show that he's a Really Useful Engine too!

Referred to by the other engines as "Devious Diesel", he believes that Steam engines are no match for Diesels.

The Steam engines and the Diesels have a well-known rivalry and it's not always easy for the Steamies and Diesels to put aside their differences and work together, but every engine on Sodor wants to be a Really Useful Engine!

Thomas is taking on the world in a whole new way!

The global adventure of discovery begins with

BIG WORLD! BIG ADVENTURES!™ the Movie, and
continues into Season 22 of the Thomas & Friends™ TV
show... and with it comes a whole new way to communicate
the fun and excitement of Thomas and his friends.

With a faster pace, wackier humor, and a more diverse cast of characters, Thomas and his friends are scaling new heights... and your copy should reflect the new spirit of fast-paced fun and inclusivity.

Themes of friendship, bravery and being "Really Useful" are still at the core of **Thomas & Friends™**...
but now there's so much more!

EXCITEMENT!
DANGER!
ACTION!
ADVENTURE!

Travels around the world where new friends are made, and exotic cultures and animals abound!

Yes, Thomas has truly gone global, and the new copy should reflect that Thomas' adventures are limitless... think of it as "Engines Without Borders!" Adding to the diversity is a whole lot of girl power, courtesy of some new female engines, and a few old friends, joining the Steam Team to take center stage. And all the engines come complete with lots of atti-toot!

In fact, Thomas' cheekier-than-ever humor means you can go beyond what's on the show and interject pop culture references as appropriate. For example:

Straight Outta' Sodor! Keep Calm & Steam On! No Sleep 'til Sodor!

In other words, now more than ever, **Thomas & FriendsTM** reflects a real child's world... full of endless possibilities, a variety of experiences, friends of both genders and friends from many lands. Thomas is no longer bound to the Island of Sodor, and neither should your copy be.

The term "Material" means the software included on the accompanying media and all whole or partial copies of it, including portions merged into other programs. The Material is protected by copyright and other intellectual property laws and it includes executable code and A/V Content. The term "A/V Content" means any image, text, recording, picture, or other audio or visual work contained within the Material.

- 1. LIMITED LICENSE. Mattel Party grants you a nonexclusive, revocable, limited license to view the Material and to:
 - a. use the Material on only one machine at any one time;
 - b. copy the Material only for backup;
 - c. in Mattel Party's sole discretion, and with Mattel Party's prior written approval in each instance as set forth in Section
- 6, copy certain images of Mattel Party products from this Material solely for use in creating, manufacturing, or advertising the Mattel Party-authorized products associated with the A/V Content, in each case pursuant to and in compliance with a (separate) written license agreement entered into with Mattel Party and otherwise consistent with the high quality and goodwill of Mattel Party's other products. You should know that certain items included in the A/V Content and certain portions of the A/V Content may be subject to third party licenses that contain restrictions on the manner in which they can be used. For example, some products included in the A/V Content may not be authorized for sale by Mattel Party outside of the United States or may not be advertised on the Internet. It is your responsibility to ensure that your intended use complies with all relevant third-party rights and licenses, and to ensure that all applicable copyright, trademark, and other ownership notices are properly included in any advertisement, package, or other duly authorized item related to the A/V Content. Any A/V Content so used may not in any way be modified, edited, or blended or combined with other image, text, recording, picture, or other audio or visual work or other materials (regardless of the source of such materials).  - d. transfer all of your license rights in the Material to another party who is an authorized manufacturer of Mattel Party's products, solely for the purposes of enabling them to view the A/V Content. To do so, you must transfer this Limited License, all other documentation included in this package, and the complete, unaltered Material to the other party. As of such transfer, the rights licensed to you under this Limited License will automatically terminate and be transferred to the other party, who, in order to be a valid user of the Material, will then be subject to all of the terms and conditions of this Limited License.
- 2. ADDITIONAL LICENSE RESTRICTIONS. This Limited License does not grant you or any third party any right to:
 - a. use, copy, or transfer the Material except as provided in this Limited License;
 - b. modify or adapt the Material and, in connection therewith, you may not modify any intellectual property or other notice within the Material:

The Material, which includes the A/V Content, constitutes the confidential and proprietary information of Mattel Party; provided that the A/V Content will not be deemed confidential to Mattel Party to the extent that it is released to the public without a breach of a duty of confidentiality under any agreement or a violation of any trade secret or other similar law.
- 5. TERMINATION. Mattel Party may terminate your license (which means that all rights licensed to you under this Limited License terminate) for any reason at any time. In such an event, (a) you must immediately cease using the Material and all A/V Content, and (b) you must immediately destroy, disable, or return to Mattel Party (at Mattel Party's election and at your cost) all copies of the Material (including any A/V Content) within your possession or control. The foregoing right to terminate is in addition to and not in lieu of any other rights and remedies Mattel Party may have at law or in equity. All of your obligations under this Limited License will survive any transfer of the Material or this Limited License or any termination of this Limited License.
- 6. RELATION TO OTHER AGREEMENTS.
